ULTRA DURABLE THROUGH AND THROUGH

TEJIDOS DURADEROS HASTA LA MÉDULA

SUNBRELLA® FIBRES ARE STEEPED IN TOP QUALITY DYES DURING THE ACTUAL MANUFACTURING PROCESS, WHEN THE ACRYLIC IS STILL LIQUID.

As a result, Sunbrella yarn is coloured all the way to the core so its original vibrancy lasts on and on. There's absolutely no comparison to ordinary procedures whereby the yarn or fabric is simply dipped in dye which therefore only penetrates the outer layers.

LOS PIGMENTOS DE ALTA CALIDAD SUNBRELLA® IMPREGNAN LA FIBRA DURANTE LA FABRICACIÓN, MIENTRAS EL ACRÍLICO ESTÁ AÚN LÍQUIDO.

El resultado es un hilo sunbrella coloreado "en su esencia" y un tejido que ofrece una adherencia, una resistencia y un color duradero excepcionales, sin comparación alguna con los tejidos corrientes, cuyo color, logrado simplemente remojando el hilo de la tela, no penetra más allá de la capa superior.

Tras ser probados conforme a las normas ISO 105 B02 e ISO 105 B04, los tejidos Sunbrella® han obtenido las notas siguientes :
